*beautiful feature walls*

---

*get a little closer...*

---

*...and you'll see the light and shade  
in the fully finished wall. You'll see  
the veining and detail, each piece  
as unique as a fingerprint.*

*when subway is  
anything but a  
commodity*

*marble subway bricks*

*soak up the understated beauty of the fan.*

---

*milestone is at  
home even in a  
contemporary  
setting.*

---

*the splashback of your dreams...*

---

---

*...or a show-stopping floor*

*Milestone doesn't need to be confined to the bathroom or kitchen, why not use it as a show-stopping entrance feature wall?*

*Think outside the square...*

*In the right space our hexagons can have a playfulness about them. We have two large sizes available, both suitable for floor and wall use.*

*every  
piece  
unique*

*Milestone is natural Italian Carrara marble, each piece formed over many years. Variation in shade is part of the natural beauty of marble.*

## *Product Details & Directions for use*

---

### *Product*

---

- Milestone features natural Italian Carrara marble, every piece is unique.
- The Italian Carrara is processed in China
- Variation in shade and veining is part of the natural beauty of the product.
- Samples shown are indicative of the product and are a general representation of Italian marble.

### *Caring for Marble*

---

- The best way to clean Milestone is with mild dishwashing liquid and warm water or a suitable marble cleaner.
- Avoid abrasive, caustic and acidic cleaners (including vinegar and bleach) which may permanently damage the marble surface.

### *Helpful Hints*

---

- Refer to your adhesive supplier for the correct choice of product for your application.
- To achieve the most pleasing effect it's essential to do a test run, or "dry lay" prior to fixing.
- Use of a penetrating sealer is recommended
- Ensure you order enough product to complete the whole job.
- Wastage allowance may vary depending on your laying option.
- To use sheeted stone mosaics in totally submersed situations such as swimming pools or shower floors we recommend you remove the marble from the mesh and install the individual pieces.
- Please note that marble varies in porosity and it is normal for the stone to absorb moisture and darken until it dries out again.
